The Bonelli Mounted Assistance Unit (MAU) is a non-profit organization consisting of volunteers who assist the County of Los Angeles, Department of Parks and Recreation at the Frank G. Bonelli Regional Park. The "MAU" benefits the community by providing safety related services and fundraising events.

More specific benefits include emergency first aid for hikers and equestrians, acting as informed observers of the Los Angeles County trails to identify problem areas where park personnel have infrequent opportunity to inspect, providing park patrons with information and the control of unauthorized motor vehicle traffic on the trails.
